A big thanks to everyone who helped me solve this.. Note: There are three files: Boot.img, Root.img and System.img.. Product Name: Wiko Note Onyx MT6572 Middle East (ME) Android 4.4.2 Factory Software, Magisk,.National Democratic Coalition The National Democratic Coalition (NDC) was the third party in Singapore. History The National Democratic Coalition was formed in February 1998 by political party reform activists who were dissatisfied with the way the People's Action Party (PAP) was governing Singapore. It was led by Aloysius Pang and was primarily made up of activists from the defunct Reform Party led by Tan Chuan Jin, the Association of Concerned Citizen and some Neo Democrats. Prominent party members included James Warrack, Zaid Ibrahim and Gary Chng. In November 1999, the People's Action Party responded by introducing changes to the election laws in order to restrict the powers of new political parties. Although the National Democratic Coalition was not brought into existence by the laws, it campaigned actively against them. One member of the Coalition, Zaid Ibrahim, wrote a book called Too many parties, too little democracy on the subject. The NDC contested three elections that were held in 2000. The NDC took about 1.8 per cent of the vote and 2 seats in parliament after the 2001 elections, but it ran only one candidate in the 2003 elections. The party failed to secure any seats in the 2006 elections and did not contest the 2011 general elections. Election results General elections Elections in 2000 Elections in 2001 Elections in 2006 Elections in 2011 References Category:Political parties established in 1998 Category:Political parties disestablished in 2011 Category:Defunct political parties in SingaporePerissopteryx flaviventris Perissopteryx flaviventris is a species of Psocoptera from Cicadomorpha in the family Cicadidae. question is about programming in C#. How can I find the number of days in a year? I need a function. A: There is no need for a function for finding the number of days in a year; the DateTime class already contains a property DaysInYear: Gets the number of days in a year. A: Since .NET 1.0, you can take use of the DateTime class to get the number of days in a year. Q: How to get the border color from an HtmlElement using javascript or css I'm trying to learn how to get the border color of an HtmlElement. I have been given the javascript code as is shown below, and it works just fine in Chrome. `function changeColor(){ var c = document.getElementById('container'); if (c.style.background == 'blue'){ c.style.background = 'black'; } else if(c.style.background == 'black'){ c.style.background = 'blue'; } };` However, when I try to test this in Firefox, it does not change the color as expected. How can I get the same code to work in Firefox, so I can get the color of the div to change from blue to black? A: `c.style.border = "1px solid " + c.style.background;` Shouldn't work in FF. You can try: `var c = document.getElementById('container').style` To see what's set.
