Dark blue ghost like creatures are feared and avoided in the lands between the Pacific Ocean and the Great Lakes. Yet, in this region, they migrate from the frozen north and stalk the shores where sunlight hides. Freeze Climbing is a new story-driven game for iOS and Android. Features: • Customize your iceman and head off into a random-world journey to find hidden gems • Journey to cold outposts and buy potions to help fight off the monsters • Collect gold and gems to level up • Track your iceman with its' own iceman map Show HN: I rolled my own DNS server and it ended up leaking my IP - taedn ====== Artemis2 > _Write DNS queries to an in memory database_ > _I know this is bad_ What if you used a SQL database instead? If I had one SQLite database in memory per UDP connection, I bet it'd be way faster. If you need more than one DNS query, you can use a shared database. ~~~ taedn This is an excellent point. I actually just verified the query speed in a bit of reading, and wrote a post about it here: [to-do-if-you-think-you-ran...](think-you-ran-a-node-running-dns-as-a-library-e0f6db0c40ce) ~~~ Artemis2 Please update your comment (and the article) with the timings. I didn't even think about it because it's so crazy obvious now, but it looks like you had a real case of premature optimization :P ~~~ taedn I've updated the article with the timings, thanks for your input! ate this number. -12- himself. Also, at sentencing, Mitchell's lawyer indicated that he had no objections to the drug

Easy Magic Are you ready to start a new adventure? It is probably your first time in the Unireal Sandbox Engine game. Easy Magic is a puzzle-game, in which the player has to defend his base against the attacks of the enemy. It is simple to learn and fun to master. There is no time limit, so you can play at your own pace. Easy Magic is the first game to be released under the brand of Easy Software. Easy Magic uses the Unreal Engine 3, which is a powerful 3D engine and develops it for Free and Open Source; this will probably be used in the future in all Easy Software's games. The title has been developed to use only Free Software (GPL v3). Easy Software Easy Software is a company that is dedicated to develop Free Software, in which you are going to find a selection of games that we publish on the market. But we don't limit ourselves to this business, a team of developers has an incredible vision to keep sharing with all of you the concepts and ideas for Free Software. But remember that the quality of the games does not depend on us, since we are not the developers of the games. Easy Software just acts as a publisher and a distributor of Free Software. Why Easy Software? We are convinced that the Indie movement is a wonderful thing for game development; all the achievements of the developers that are creating games with this humble condition are always worth to be applauded. There are many tools for Free Software, but as a programmer, you will need to learn them all. You already know one, but we know a little more, so we started to develop a tool for Free Software. Easy Software. This is where we share with you the knowledge we have acquired since then. With Easy Software, we develop games of quality for Windows, Linux and Android. Easy Software has always developed Free Software games, but we are convinced that games and programming are two different skills, so some games have been developed with Unreal Engine while the other has been developed using a basic game engine. These games can be compared, but we have always placed priority on programming skills. We believe that one game will be of good quality if all team members know how to program. So we are a company with great minds that are looking to share their knowledge and ideas and to develop and publish games for the market. FREE SOFTWARE Easy Software is dedicated to share knowledge and innovations by creating Open Source c9d1549cdd
