The reboot of Star Wars franchise has always been ahead of time. The game was released in 2005 when the technology was very limited. The franchise slowly started to its reboot. Rebels is the latest reboot of Star Wars. The franchise started with the Disney acquisition of Lucasfilm in 2012. At the time, Lucasfilm had two projects (the live action trilogy and the animated Clone Wars cartoon) in development. Disney then merged the two into one slate and gave it a new game title. The announcement was received with mixed reactions. Star Wars fans were excited to see their favorite characters in a new setting. Disney then gave us the first look in early 2013. After that, more details were revealed about the game, revealing a variety of key details, including the potential story. There were also concerns about the game since it was being done by Disney's animation division. That concerns turned out to be well-founded, and their results were mixed. They also released an iOS app called Star Wars: The Force Unleashed that was a retelling of the first movie on iPhone and iPad devices. Disney then decided to give us the second season of Star Wars Rebels in 2014. So far, we have seen that new world, new places, new characters, new gear, etc. On June 13, 2014, Disney released the first trailer for the second season. The trailer was without sound. However, it was pretty big. It highlighted some characters, locations, and was the first glimpse we had at the setting. Then, in December 2014, a second trailer was released. This one was with sound, and it gave us some of the plot details. The trailer has an early teaser of Obi-Wan piloting a TIE fighter. Many thought that it was actually something new.
