Four adventurers have decided to set off on a journey through a mythical forest. They've climbed high into the trees; observing the woodland from the top of their branches. Soon they find their journey interrupted by two winged creatures. The creatures attack and the adventurers go into an almost disoriented frenzy, wondering what in the world happened to them. It took the adventurers a good while to find their sense of self and to figure out what it was they were doing in that forest. And now they must return home as they realize what it was they set out to do. The truth is that, to those creatures, they are the trespassers.
