I just wrote a short script that downloads your entire archive from box.cncservers.com and posts it on all my other sites. If you have any issues with the script, shoot me an email, I'll be happy to help you out. Many typos and mistakes, sorry for them. If you do want the script run - it's 1/4 of the length of the typical archive download. I've left the link to the script on the top of this page. Happy to help you out! Need fixing, and many, many typos. Thanks for the review, but this is all you need. You don't need to be on a server, just register for a free account. I looked into it, and they are actually pretty good about letting you register. They don't even provide a method of paying for registration if you don't want to. I only ask for this review because the site is hard to navigate, and there is a lot of room for improvement. Another issue with the site, is that the shop is above a missing page. But if you go to the next page, you will find the link to that shop there, so navigation isn't an issue. Again, the site is pretty good about letting you register, so you aren't in any danger of being banned. They use e107, so you aren't on your own if you get banned or get hacked. They don't even provide a method of paying for registration if you don't want to. I would have preferred a simpler layout, but I think the site is much easier to read with the way they have it formatted, so it's not really an issue
