**Download System Center Operations Manager 2012  
Unleashed EXCLUSIVE**

**Download**

---

1. you cant install the portal on de dw management server 2. you can install the portal on the wf management server or any other server 3. run the setup as administrator, or else you will get an iis 7 role is not installed error 4. its not clear if there are issues resolved in ur8, since the kb is missing. 5. the download mentions that ur7 is a prerequisite, while the installation documentation on mentions that: in order to deploy the new self service portal, you must have system center 2012 r2 service manager update roll-up 8 or later installed. 6. download contains an.mpb file, but when i want to import this the console mentions that its already installed. 7. some links in the setup wizard refer to technical preview documentation 8. service requests which have required fields cannot be canceled in the self service portal 9. incident requests are created under the service account supplied during ssp installation and not using the logged on user account 10. the default language is french, this can be modified in the application settings or web.config in iis though
