What's New in the Fast Port Scanner?

Port scanner which performs extremely fast and reliable scans of millions of open ports. It has a rich set of features which allows you to fully customize the scan options. Features ⬚ Scan ports 1 - 1048576 (and larger numbers) per second ⬚ Several modes of operation ⬚ Seperate UDP or TCP scan ⬚ Supports IPv4 or IPv6 ⬚ Port range can be specified by a string or by a range of port numbers ⬚ Supports host name resolution ⬚ Supports wildcards in hostname and port ranges ⬚ Several protocol options ⬚

Allows partial port scans for the sake of accuracy and performance ⬜ Allows you to define multiple separate scan threads ⬜ Supports setting of the keep alive interval between subsequent scans of the same port ⬜ Allows you to manually select open ports ⬜ Allows you to limit the amount of memory your scan will use ⬜ Allows you to change the character used for the delimiter between ports ⬜ Allows you to change the character used for the delimiter between hosts ⬜ Supports advanced options ⬜ Allows you to define a timeout period to scan a specific port for a specific amount of time ⬜ Allows you to use only the outgoing ports for traffic analysis ⬜ Allows you to modify the headers sent when forwarding the packet on ⬜ Allows you to check for common error conditions ⬜ Allows you to specify custom sequences of packets (0 to unlimited) ⬜ Allows you to specify custom packet timings ⬜ Allows you to terminate the scan when the total number of packets exceeds a specific amount ⬜ Allows you to change the scan type (either continuous or quick) ⬜ Allows you to toggle the use of Linux in-kernel threads ⬜ Allows you to toggle the use of libpcap in-kernel threads ⬜ Allows you to toggle the use of non-in-kernel threads ⬜ Allows you to select a specific driver for the interface (tcpdump, libpcap, etc) ⬜ Allows you to select a custom driver (tcpdump, libpcap, etc) ⬜ Allows you to toggle the use of a specific packet type ⬜ Allows you to define a sleep period between packets ⬜ Allows you to

specify the interval at which a packet type will be used ☐ Allows you to use the OSS library to perform the scan

System Requirements:

Minimum: OS: Xp 2000/xp/xp 64bit 2003 xp sp2 2003/xp 2004/xp/xp sp3 2004 xp sp3 xp sp4 xp sp4 64bit 2005 xp sp5 xp sp5 64bit xp sp6 xp sp6 64bit 2008/xpsp6 windows 7 The game requires
